

i30 Range

Safety ready. Connectivity ready.
Human ready.

We've all been there. Before heading out on the roads, we make promises to each other. We tell our mothers that we'll drive safely. We tell our loved ones that we'll be back in time for dinner. And we promise our children that we'll read them a bedtime story when we get home. The new i30 is built to let you keep those promises time and time again. All i30 models are equipped with the latest smart tech, like a comprehensive range of first-class safety and connectivity features. We added more technology, so you can be more human.

Three ways to your perfect fit.

Family, fun or fashion? We've got you covered. With its sleek new design and three body styles to choose from, the new i30 range is the perfect fit – whatever your needs. We've equipped them all with the latest smart tech, including cutting-edge safety and connectivity technology plus a choice of five fuel-efficient powertrains – including 48V mild hybrid versions – the new i30 comes with everything you're looking for. And much, much more.

The beauty of powerful details.

The new i30 N Line Hatchback.

With its sleek, sculpted presence, refined surfaces and precise lines – the new i30 thrills from every angle. And now you can take it to an even sportier level with eye-catching design elements inspired by the high performance i30 N. Completely revamped for an even sportier look, the i30 N Line's bold new design bristles with powerful details. In the front, new LED headlamps and V-shaped Daytime Running Lights catch the eye from a distance, flowing gracefully into the muscular new grille. Inspired by aeronautic jet design, the unique black grille is now wider and bolder – and together with the new bumper, emphasizes the i30 N Line's strong stance and performance credentials. The dynamic side air intakes feature floating wings which have been specially designed to improve aerodynamic performance.

The sportier side of style.

Sleek and powerful, the new i30 N Line's bolder, refreshed exterior design includes a completely re-designed rear bumper, which further emphasizes the dynamic N Line character. The wide diffuser, twin chrome exhaust pipes and new silver highlight line combine to make a strong statement and give the rear an impressive motorsport stance. The rear fog lights have also been repositioned to focus the visual centre of gravity closer to the ground for a sportier flair. And when it comes to the wheels, two all-new 17" or 18" versions highlight the N Line's strong motorsport roots.

Design highlights.

Wider and bolder black grille.

Sleek new full LED headlamps and integrated V-shaped Daytime Running Lights.

Twin chrome exhaust pipes.

Styled for versatility.

The new i30 N Line Wagon.

Introducing the new i30 N Line Wagon. Beautifully sculpted and featuring a sharper design, it has been created to turn heads – and adapt perfectly to your needs with roomy versatility. With its beautiful proportions and unmistakable silhouette, the new i30 Wagon is bringing new levels of design flair to the class. Available with the new i30 Wagon for the first time, the dynamic, motorsport-inspired N Line trim has undergone a comprehensive design update.

Take everything and experience it all.

A pulse-raising blend of sculpted sophistication, clever connectivity and advanced safety technologies, the i30 N Line Wagon is redefining beauty with a big portion of roominess – its spacious interior adapts to accommodate anything life throws at you: work, play and everything in between. Just open the tailgate for easy access to the roomy 602-litre cargo space. Or if you need to haul bulky or long items, simply fold the rear seats flat to quickly expand the cargo space to a generous 1650 litres.

Styled like nothing else.

The new i30 N Line Fastback.

Featuring a sleek, sloping roofline and a lower, edgier stance – the new i30 Fastback N Line adds a generous portion of motorsport muscle to the iconic fastback design. Like the rest of the i30 family, the Fastback N Line has been revamped for an even sportier look. Next to the dynamic design features, it also features a lowered suspension for an even more road-hugging and planted stance.

Designed to thrill you.

Design is more than form, it's a feeling you get. That special something that keeps drawing your eye back in for another look. Inspired by a drop of water, the C-pillar treatment and rear windscreen are designed with soft, elegant shapes that reinforce the tapered belt line. Together with its sloping silhouette, it makes the i30 Fastback N Line a true beauty to behold. The rear end features the sculpted rear bumper carried over from the i30 Fastback N with its elegantly shaped reflecting red character line and triangular LED fog lamp.

Technology that lets you be human.

Humans are deeply sophisticated beings, but we're not perfect. We lose our keys, spill our coffee and miss our turns. That's what makes us human. And the good thing is: nobody has to be perfect. That's why every new i30 is equipped with a wide range of smart tech. Our wide range of first-class safety, connectivity and convenience features is the perfect answer to human imperfection. We added more technology, so you can be more human.

Enjoy state-of-the-art connectivity.

Updated to bring you the latest tech to make your life easier – and your drive more enjoyable – the new i30 provides you with the seamless connectivity you expect from a clever car nowadays. The crowning jewel of the interior is now the beautiful new 10.25" floating touch screen, which integrates 3D navigation and BlueLink® Connected Car Services. It also comes with a free 5-year subscription to LIVE Services, with real-time traffic, weather, POI information and speed camera alerts*. Apple CarPlay™ and Android Auto™ are on board as well so you can connect your phone and have your music, phone and app functions right up on the big screen. Naturally, a wireless charging pad is also located in the centre console for even more convenience.

Apple CarPlay™ is a registered trademark of Apple Inc. Android Auto™ is a registered trademark of Google Inc.
*The speed camera alert feature is not available in all countries.

10.25" floating touch screen

Bluelink® Connected Car Services.

Control your car from your smartphone – or with your voice. Bluelink® Connected Car Services bring seamless connectivity directly into the new i30 with online voice recognition and a wide range of features to make your drive more convenient and enjoyable – like Hyundai’s new Cloud-based service: Connected Routing, which is being premiered in the new i30. On top of the many clever features you can control with the Bluelink app, a free five-year subscription to Hyundai’s LIVE Services is also included with the navigation system.

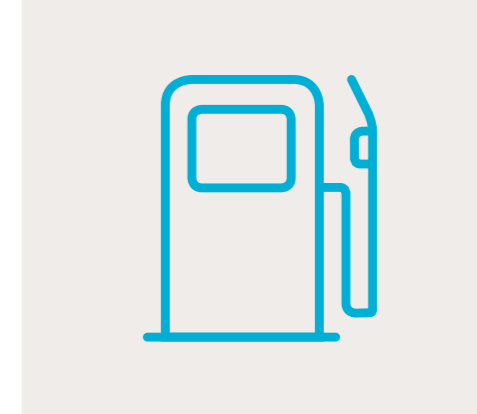

Destination send to car.
Simply get in and press go. If your i30 is equipped with navigation, you can use the Bluelink app to search for destinations while outside of your car. Bluelink then syncs with your navigation system, loading the route so that it is ready to go when you are.

Find my car.
Forgot where you parked? No problem. Just open the Bluelink app and the map will guide you there.

Remote door lock & unlock.
Forget to lock your car? Don't worry, your i30 will let you know by sending a push notification to your smartphone. Then, after entering your PIN, you can lock or unlock the doors using a button in the Bluelink app.

On-demand diagnostics.
For more peace of mind, you can run a full vehicle diagnostic check on your vehicle's health using the Bluelink app on your smartphone.

Live fuel price information.
Find fuel when you need it, at a nice price – the continually updated fuel service coverage provides you with current fuel prices and information on location, opening times, and payment methods – all displayed on the navigation touch screen.

On & off-street parking.
Find a parking spot faster for more efficient and stress-free parking. The parking information features help you find and compare parking options in garages, parking lots and on the street.

Connected Routing.
Enjoy more accurate traffic information, more precise times of arrival, and more reliable route recalculations so you get there faster. A powerful new Hyundai Cloud server uses real-time and historical data for better routing and forecasting.

Last Mile Guidance.
If you have to park your i30 before you reach your end destination, you can hand over navigation from the car to the Bluelink app. Your phone will then guide you exactly where you want to go with the help of augmented reality.

**Enjoy sporty roominess
with a view.**

Get into a new level of sportiness.

The N Line interior.

Get inside the new i30 N Line's upgraded cockpit with its exclusive extras and red contrast stitching – and you'll feel its motor sport roots instantly. The stylish N Line steering wheel is finished in fine leather with perforated leather grip zones for more comfort and control. The sporty N Line seats feature the N logo on the headrests and are available in full cloth or a suede / leather combination. The N Line gearshift features sporty metal accents, a red racing line and leather inserts for better grip and more motorsport feeling.

Convenience highlights.

Panorama sunroof
Sit back, relax and enjoy the wind in your hair. The tilt-and-slide panorama glass sunroof available with the i30 Hatchback and Wagon makes the spacious interior feel even roomier.

Wireless charging
The wireless charging tray conveniently located in the centre console lets you easily charge a compatible Qi-enabled smartphone without the hassle of having to plug it in.

Rear view camera
Enjoy better visibility and more peace of mind while backing-up. The rear view camera shows the area behind the vehicle via the floating touch screen. Dynamic parking guidance lines in the touch screen show you the direction in which the car is aligned.

More efficiency.

More choice. Better powertrains.

The new i30 is available with a choice of five fuel-efficient petrol and diesel powertrains ranging in power from 110 PS to 160 PS. And for even better fuel efficiency, you can choose from a wide range of 48V mild hybrid versions as well. The mild hybrid system contributes to a significant reduction of fuel consumption and CO2 emissions. The engines are available with a six-speed manual, a seven-speed dual clutch transmission (7DCT) or a newly developed six-speed Intelligent Manual Transmission (iMT). The iMT can decouple the engine from the transmission by an all-new electric clutch system to further reduce fuel consumption. And for an even more dynamic ride, N Line Hatchback and N Line Fastback both feature tuning updates for suspension and steering. This tuning is available in combination with the 1.5 litre Turbo Petrol 160 PS engine and 1.6 litre Diesel engine with 136 PS.

Cutting-edge fuel-saving technology.

48V Mild Hybrid

Save fuel and reduce emissions with the i30's optional 48V mild hybrid system. It supports the combustion engine with an additional 60 Nm of torque during acceleration – depending on the battery's state of charge and the degree of acceleration. As a result, the powertrain's fuel economy and CO2 emissions are significantly improved. The hybrid system is also great for city traffic, as it also supports the combustion engine with faster and smoother re-starts after stops, saving additional fuel. A Mild Hybrid Starter Generator (MHSG) recuperates kinetic braking energy by converting it into electricity, and stores it into the 48V battery for later usage. Available in combination with the 1.0 and 1.5 litre Turbo petrol engines, as well as the 1.6 litre 136 PS diesel engine, the 48V system is available with a seven-speed dual clutch transmission (7DCT) or a newly developed six-speed Intelligent Manual Transmission (iMT).

Intelligent Manual Transmission

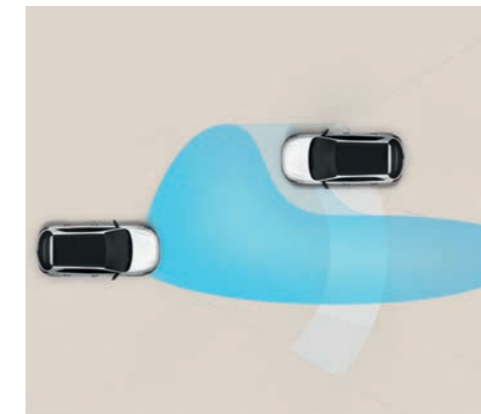

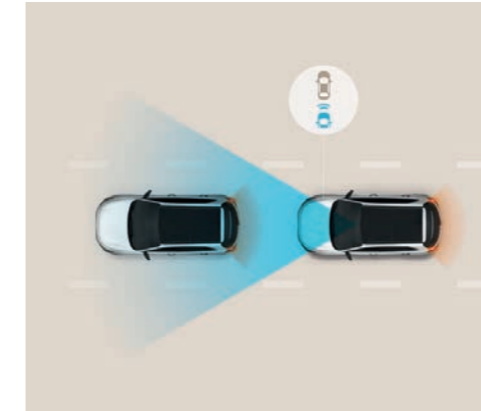

Designed to lower emissions and increase fuel efficiency, the new Intelligent Manual Transmission (iMT) available on the new i30 decouples the engine from the transmission at constant speed after the driver releases the accelerator, and the vehicle goes into coasting mode*.

*Subject to driving conditions

Hyundai SmartSense.

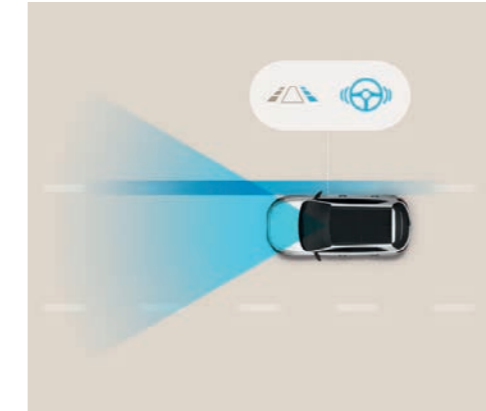

The new i30 now also features an improved Hyundai SmartSense package – our cutting-edge Advanced Driver Assistance Systems – built to provide you with more safety and peace of mind. Combining front and rear radar with a multifunction camera, the active safety offering has been updated to include Lane Following Assist, and Blind Spot Collision-avoidance Assist. Rear Cross-traffic Collision-avoidance Assist is also available for the first time. When reversing out of areas with low visibility, like in parking lots, the system warns you if vehicles approach from the side – and also automatically applies the brakes.

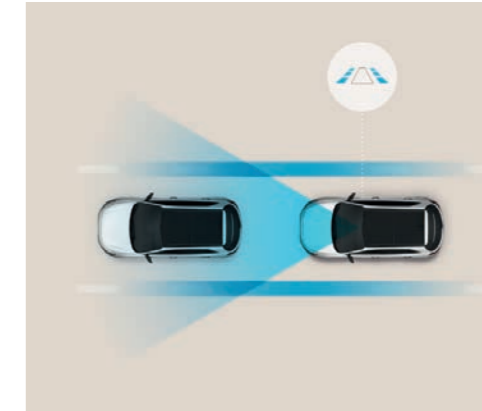

Forward Collision-avoidance Assist (FCA).
Sensing the road ahead with radar and a camera, FCA warns you and then automatically brakes when it detects sudden braking by a car ahead. The system also detects pedestrians and cyclists.

High Beam Assist (HBA).
Less stress and maximum visibility. HBA not only detects oncoming vehicles but also vehicles in the same lane ahead and switches to low-beam as appropriate.

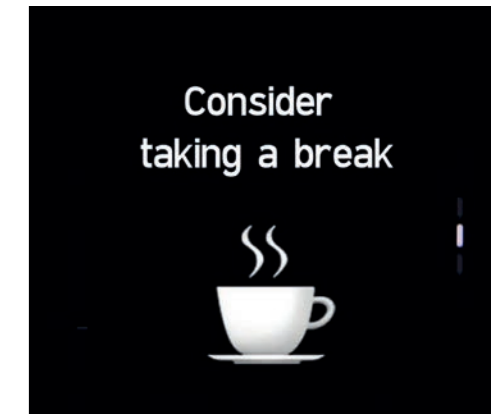

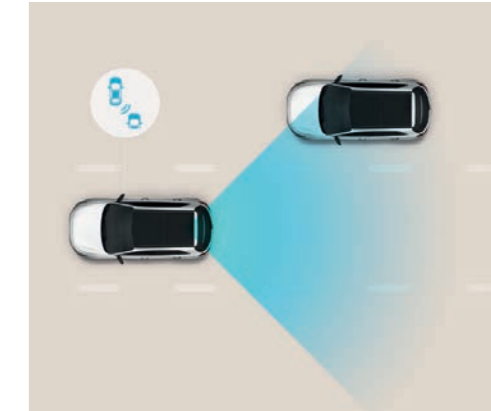

Lane Keeping Assist (LKA).
Uses the front camera to monitor the lines of the road. In case of an unintended lane departure, it will warn the driver and can apply counter steering torque to guide the car back to the lane.

Rear Cross-traffic Collision-avoidance Assist (RCCA).
When reversing out of areas with low visibility, the system not only warns the driver if vehicles approach from the side – it also applies the brakes automatically.

Lane Following Assist (LFA).
When activated, it keeps the vehicle centred in its lane at speeds between 0 and 180 kilometres per hour on highways and city streets.

Intelligent Speed Limit Warning (ISLW).
Recognizes road speed signs and displays the speed limit and no-passing signs in real time in both the navigation system display and instrument cluster.

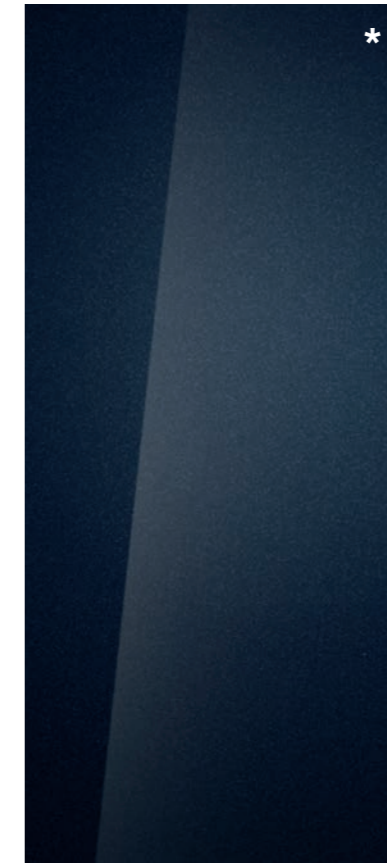

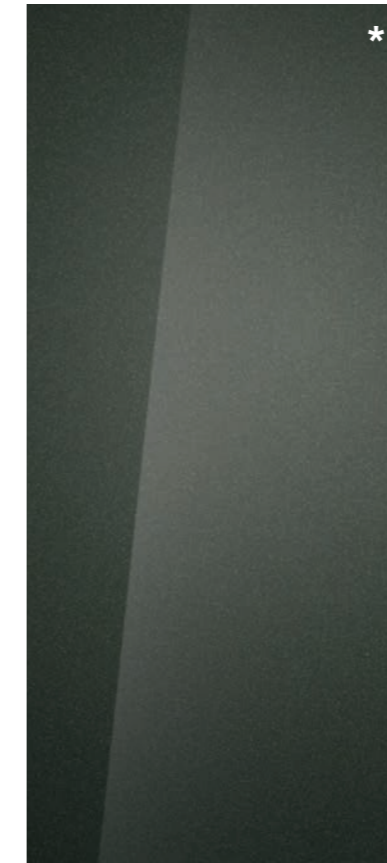

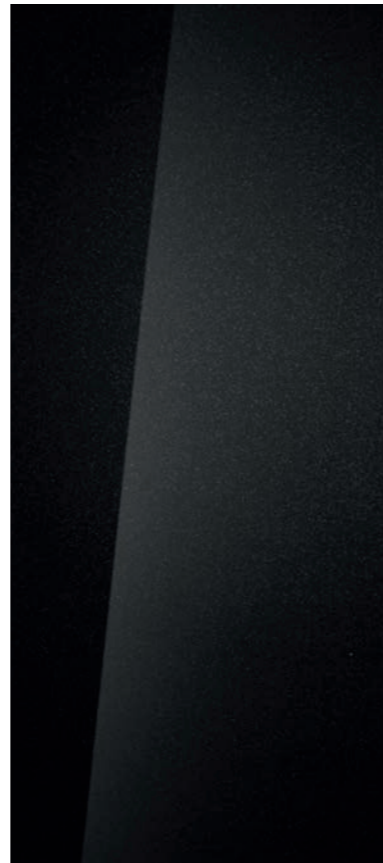

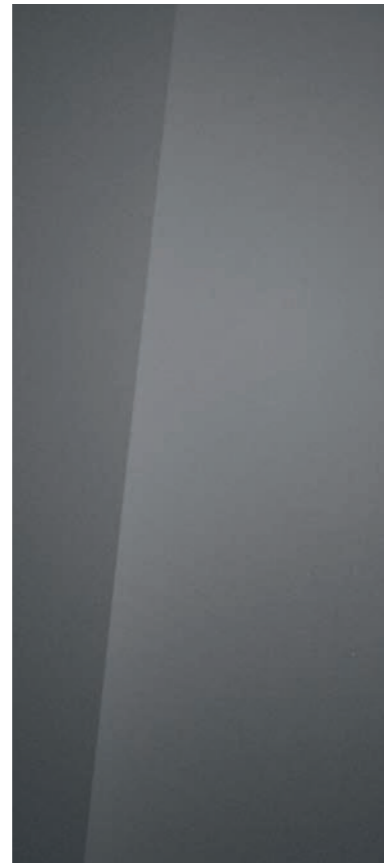

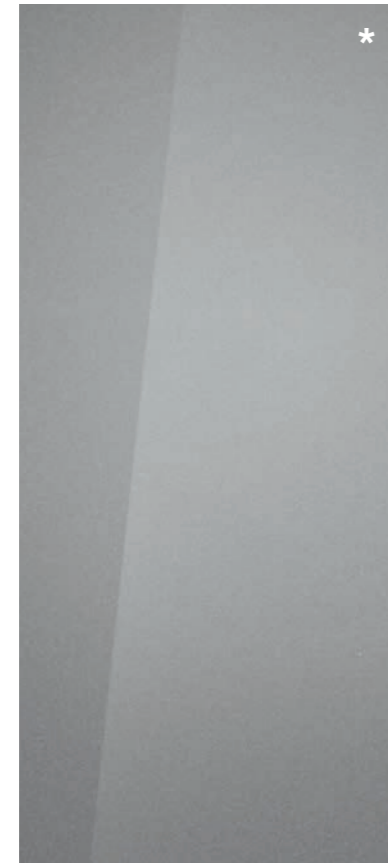

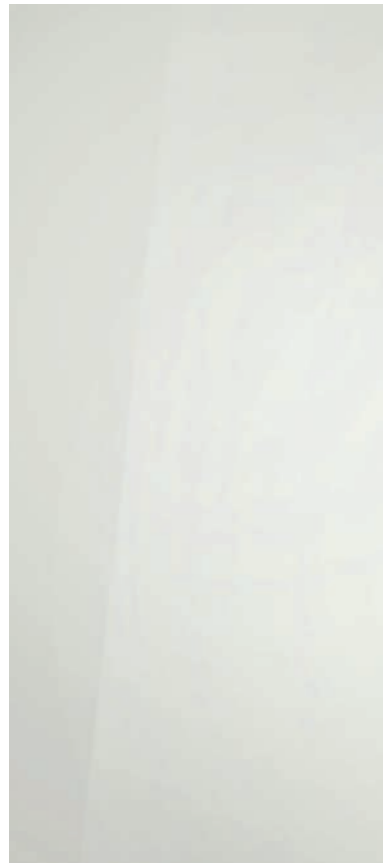

Blind Spot Collision-avoidance Assist (BCA).
Using two radar sensors in the lower rear bumper, the system warns you of traffic in the blind spot area. Should you set the turn indicator in such a situation, it will sound an acoustic alert and brake to avoid a collision.

Driver Attention Warning (DAW).
When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

N Line Exterior colours.

Personalize your new i30 N Line with a choice of 10 exterior colours. Three new exterior colours have been added to the range: Dark Knight, Silky Bronze and Sunset Red.

The beauty of elegant details.

The new i30 Hatchback.

Elegant from every angle.

The refined surfaces and precise lines that have made the award-winning i30 so successful have now been updated with a wide range of sleek new design elements. Bolder and more elegant, the sophisticated new grille and redesigned bumper emphasise the i30's more modern stance. Another touch of subtle sophistication is added by the completely reimagined air intakes with their metallic wing accents. The new, slimmer LED headlamps and integrated V-shaped Daytime Running Lights put the finishing touch on the refreshingly elegant front-end design. The clean profile is accentuated by the strong character line, which arches elegantly from the new LED headlamps in the front, all the way through to the rear LED combination lamps.

Stronger. Sharper. More sophisticated.

With its sharper lines and elegant new features, the new rear bumper makes a very sophisticated statement. The lower bumper line has been completely redesigned, and is now highlighted by prominent dual chrome bezels for an exclusive touch. The rear fog lights are sleeker and slimmer – repositioned lower on the bumper to focus the visual centre of gravity closer to the ground for a more elegant stance. The new LED rear combination lamps also feature a V-shape, which mirror the front Daytime Running Lights. This creates an elegant symmetrical connection between the front and the back, giving the i30 a one-of-a-kind light signature.

Design highlights.

Wider grille with chrome-coloured highlights.

Sleek new full LED headlamps and integrated V-shaped Daytime Running Lights.

Dual chrome bezels in the lower rear bumper.

Designed

to move you – and all your stuff.

The new i30 Wagon.

Redefining beauty with a generous portion of roominess, the new i30 Wagon is bringing new levels of design flair to the class. Precisely sculpted surfaces, a tapering silhouette and elegant new design details give the i30 Wagon an air of sleek, simple sophistication. This clever estate wagon is shaking up the segment with its refreshingly elegant design coupled with excellent versatility and space.

Compliments
come as standard.

The new i30 Fastback.

Created to turn heads, i30 Fastback's gracefully raked lines and sloping fastback roofline set it apart from the crowd – elegantly. The new i30 Fastback's dynamic contours and new design elements come together to create a level of elegance that will touch your sense for the good things in life.

Enjoy elegant roominess
with a view.

Get into a sophisticated new level of comfort.

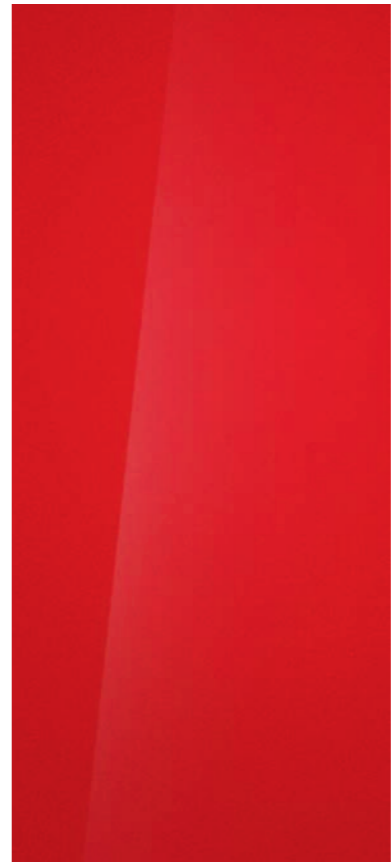

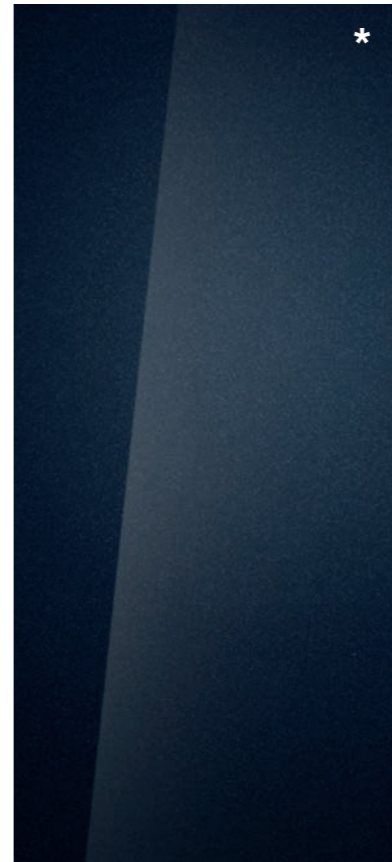

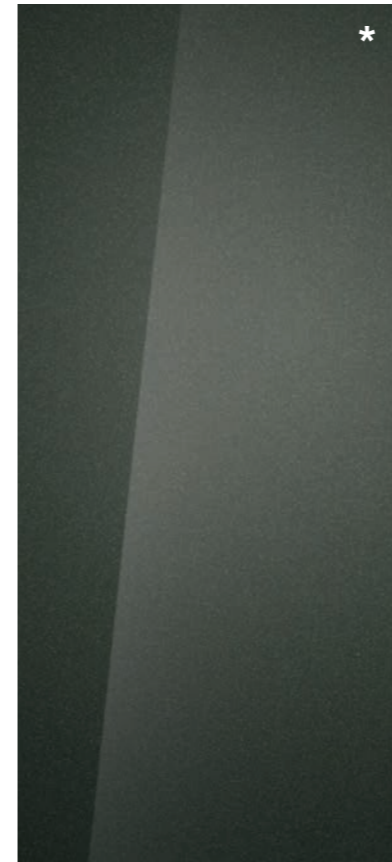

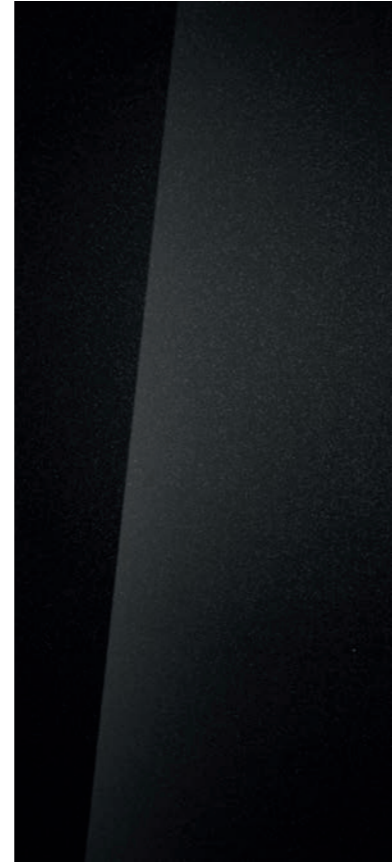

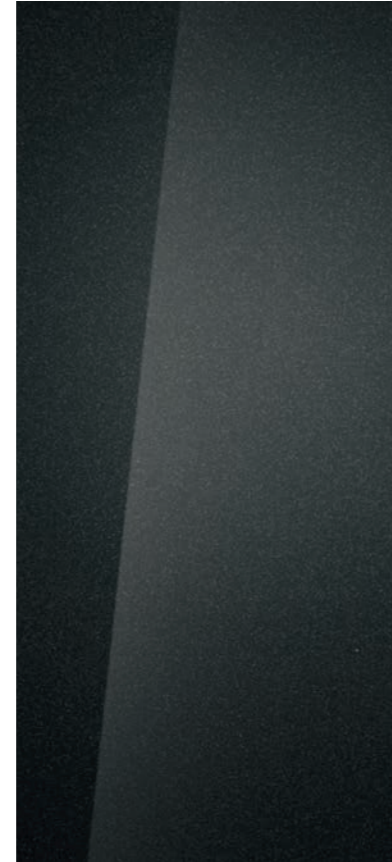

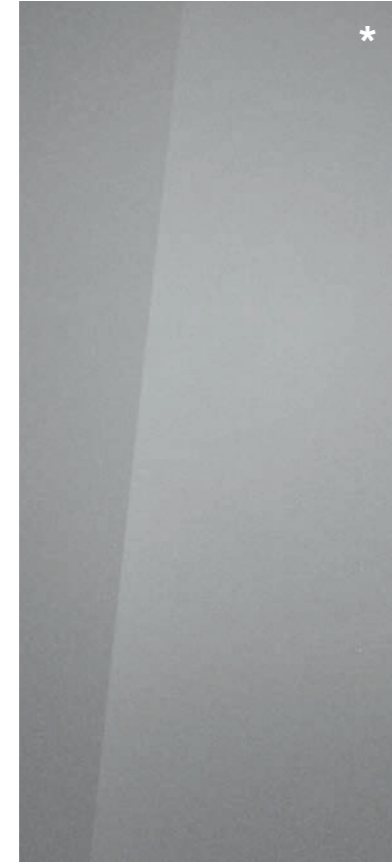

The i30 interior.

Get inside any one of the elegant new i30 variants, and you'll feel the attention to detail instantly. The simple elegance of the dashboard, cabin surfaces, and fixtures creates a premium feeling of quality and space. Now featuring an updated, more modern interior design, the sophisticated cockpit is now equipped with more refined air vents and three new interior garnish colours to choose from. Opt for the new 7" digital cluster and a new 10.25" navigation touchscreen for an even more high-tech look.

Exterior colours.

Personalize your new i30 with a choice of 9 exterior colours. Three new exterior colours have been added to the range: Dark Knight, Silky Bronze and Sunset Red.

You have enough to take care of.

**Let us
take care of you.**

Life is good. But it can also get really busy. Your job, your kids, your parents. Sometimes, you have a million things on your mind. So it's reassuring to know that when you get inside a new i30, you can relax – because everything is taken care of. We've designed and equipped the new i30 Hatchback, i30 Wagon and i30 Fastback with the latest smart tech: first-class safety features, clever connectivity and highly efficient powertrains. Technology that is always ready to take care of you.
