Human Ready.

Its sporty style makes an impact and it's human ready, which means it's built around you to provide a seamless and convenient driving experience. The Hyundai i20 redefines motion, even when not on the move.

[Discover more](#)[Configure](#)

Inspire attention.

The Hyundai i20 is making a stir on the roads with its dynamic design and best-in-class technology and safety features.

Sportiness redefined.

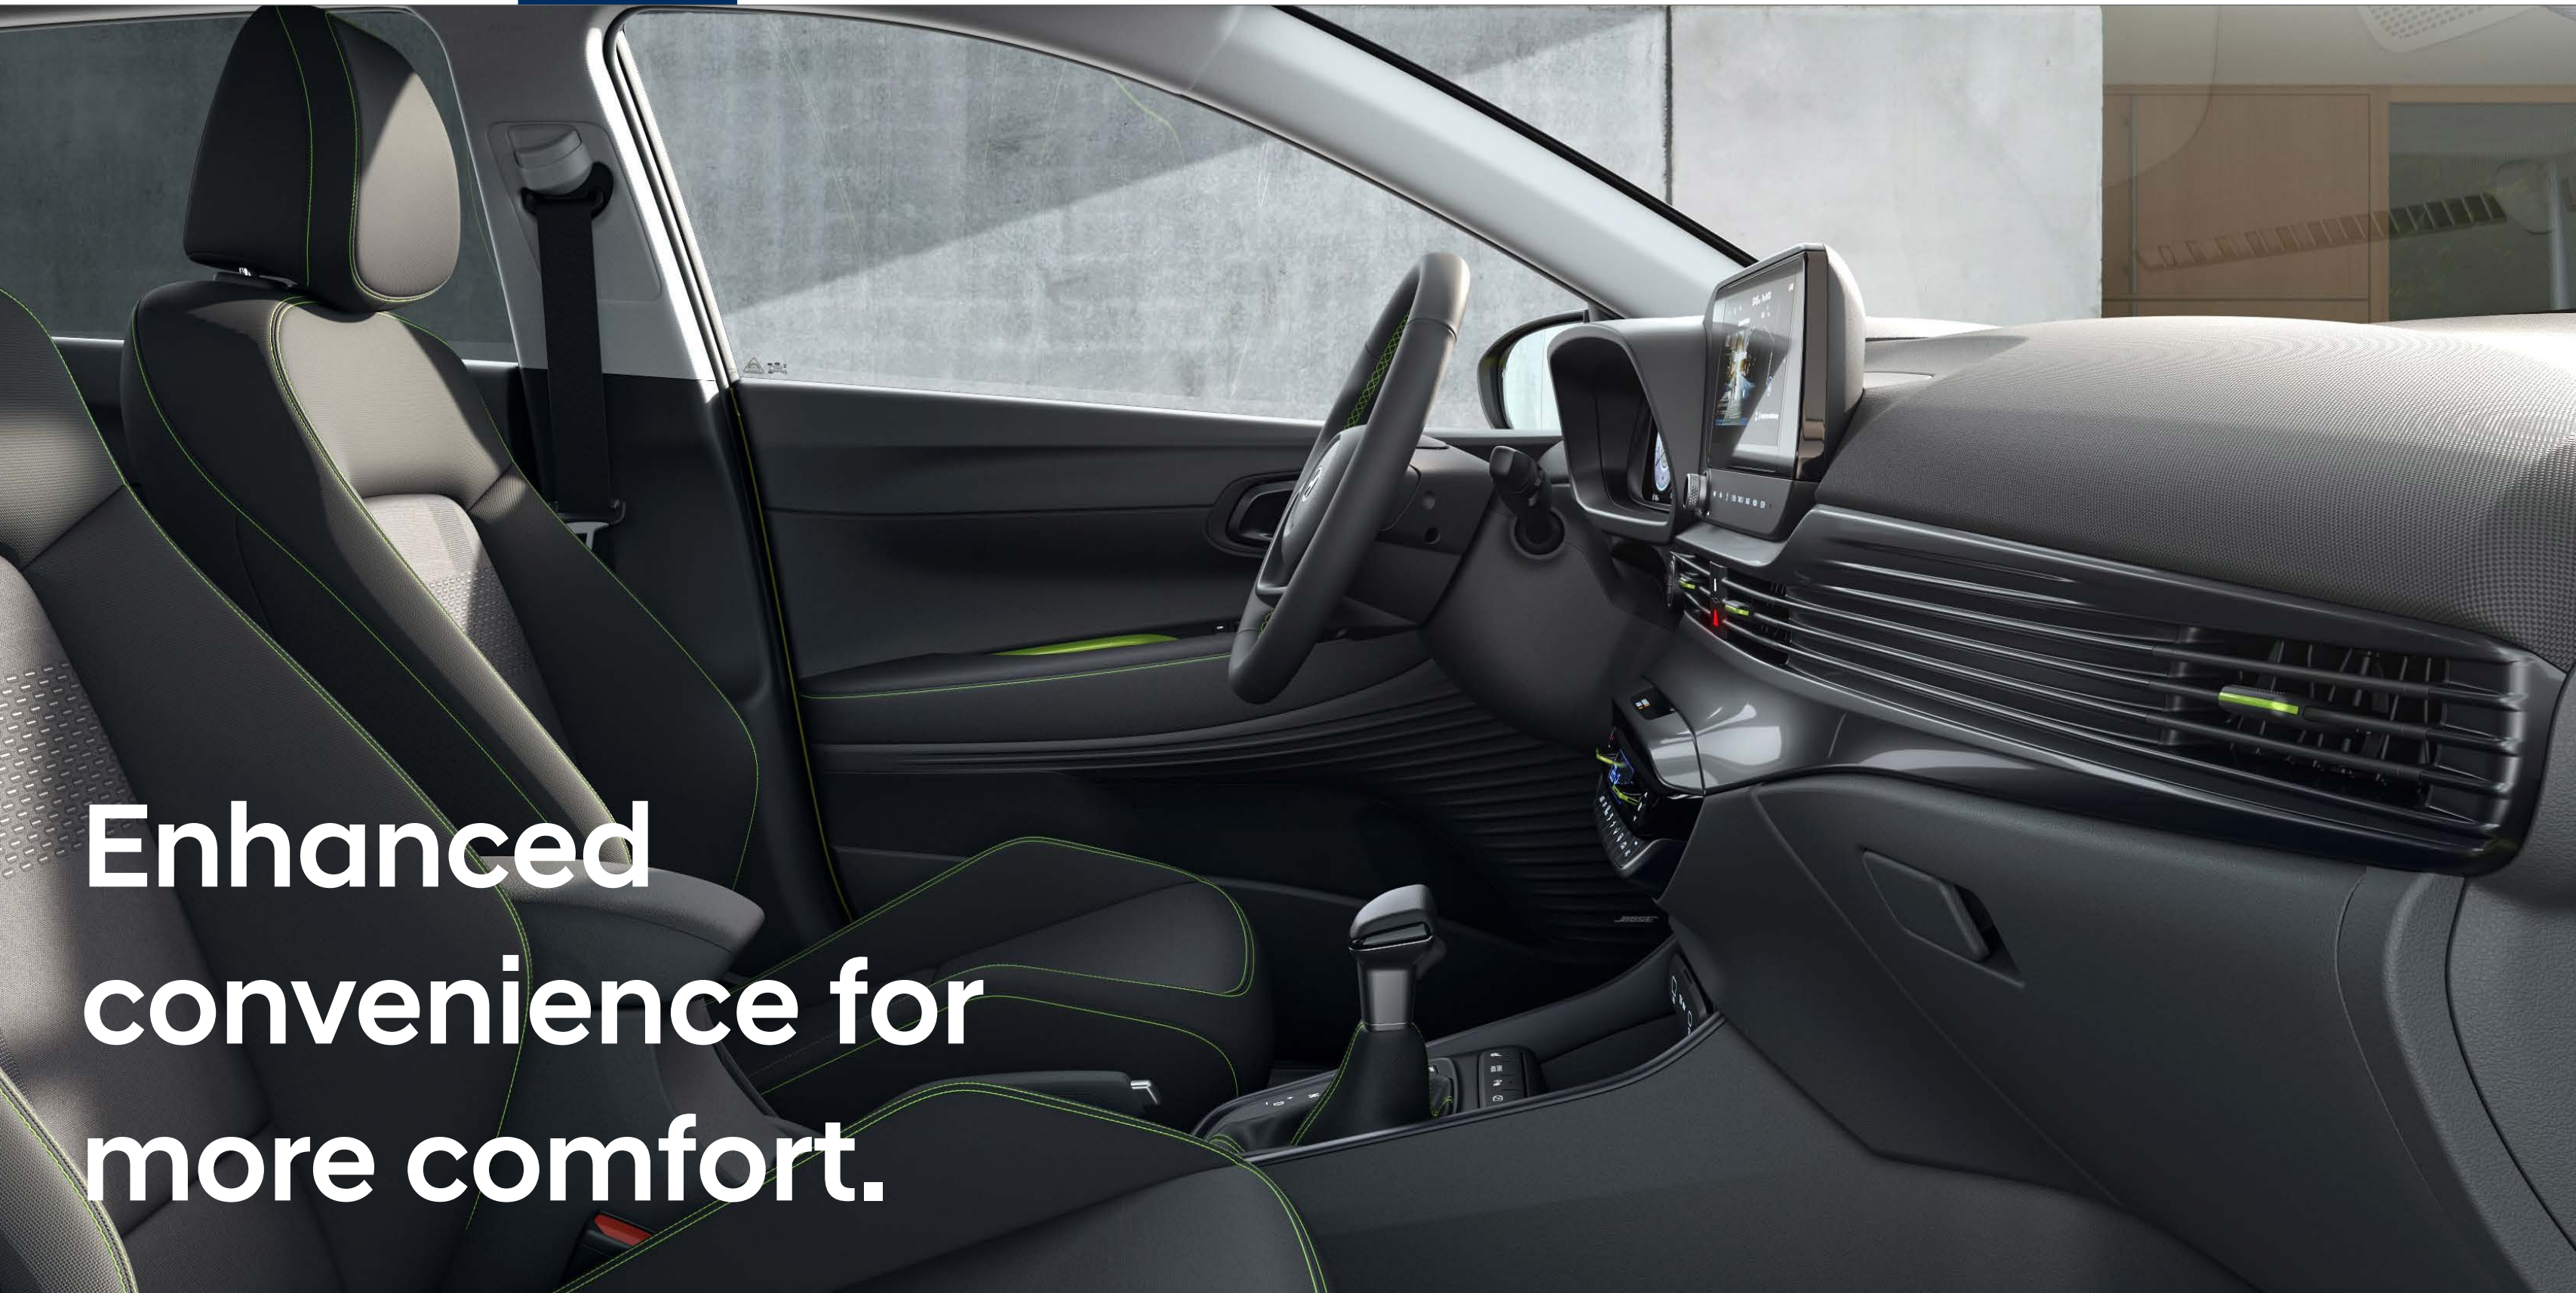

With its distinctive design and a choice of new colours, the Hyundai i20 makes an impression everywhere.

Take the spotlight in style.

The bold new front and rear bumpers blend with the striking new wheels to create a shape that's full of dynamism. It doesn't matter where you want to go, it'll always fit in.

**Enhanced
convenience for
more comfort.**

As intelligent inside as it's stunning outside.

Style meets substance in an intelligent interior that's designed around you and your needs. New, multicolour ambient lighting and accent options complete the package to give you an interior that's as striking as the i20's exterior.

**Technology with
a human touch.**

Connectivity highlights.

An 8" or 10.25" centre touch screen and a 10.25" digital cluster give you an overview at a glance, while USB-C and wireless charging and calling mean you're always connected, even if you're not plugged in.

Over-the-air software updates.

Get the latest enhancements as soon as they are available, without having to download and install them manually, or visit a dealership.

Drives as good as it looks.

Regardless of whether you choose petrol or mild hybrid, manual or automatic, the i20 has the most efficient and dynamic powertrain for you.

More powertrain choices.

An 48-volt mild-hybrid system can be mated to the new i20's 1.0 T-GDi engine – available with 74 kW (100 hp) or 88 kW (120 hp). Designed for maximum efficiency and performance, the system contributes to a reduction in fuel consumption and emissions.

Petrol engine

Engine

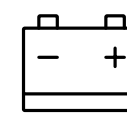

1.2-litre MPi petrol engine with 62 kW (84 hp), coupled with a 5-speed manual transmission. Front-wheel drive.

1.0-litre T-GDi petrol engine with 74 kW (100 hp), coupled with a 6-speed manual transmission or a 7-speed dualclutch transmission. Front-wheel drive.

48V Mild Hybrid

Engine

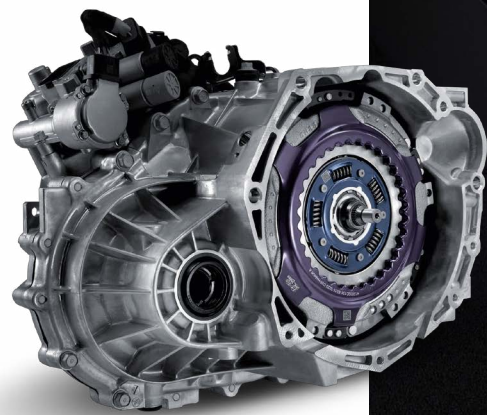

Battery

48-volt mild hybrid technology is available on the 1.0-litre T-GDi petrol engine with 74 kW (100 hp) and 88 kW (120 hp) and can be combined with a 6-speed intelligent manual transmission or a 7-speed dual-clutch transmission.

More efficiency.

Choose between different transmission options.

7-speed dual-clutch transmission

The dual-clutch system enables lightning-fast gear changes, whether you use the convenient automatic mode or prefer to shift gears manually.

6-speed manual gearbox

The manual transmission lets you operate the clutch and shift gears yourself for precise, smooth gear changes.

Intelligent manual transmission (iMT)

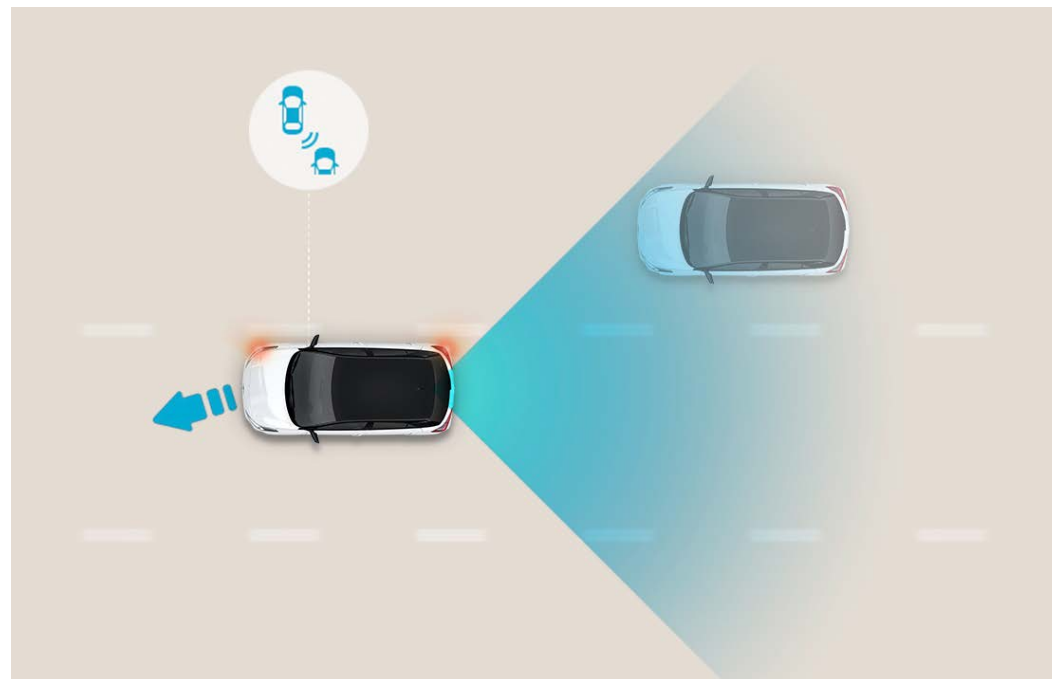

The 6-speed iMT is designed to lower emissions and increase fuel efficiency by automatically engaging coasting mode whenever you release the accelerator.

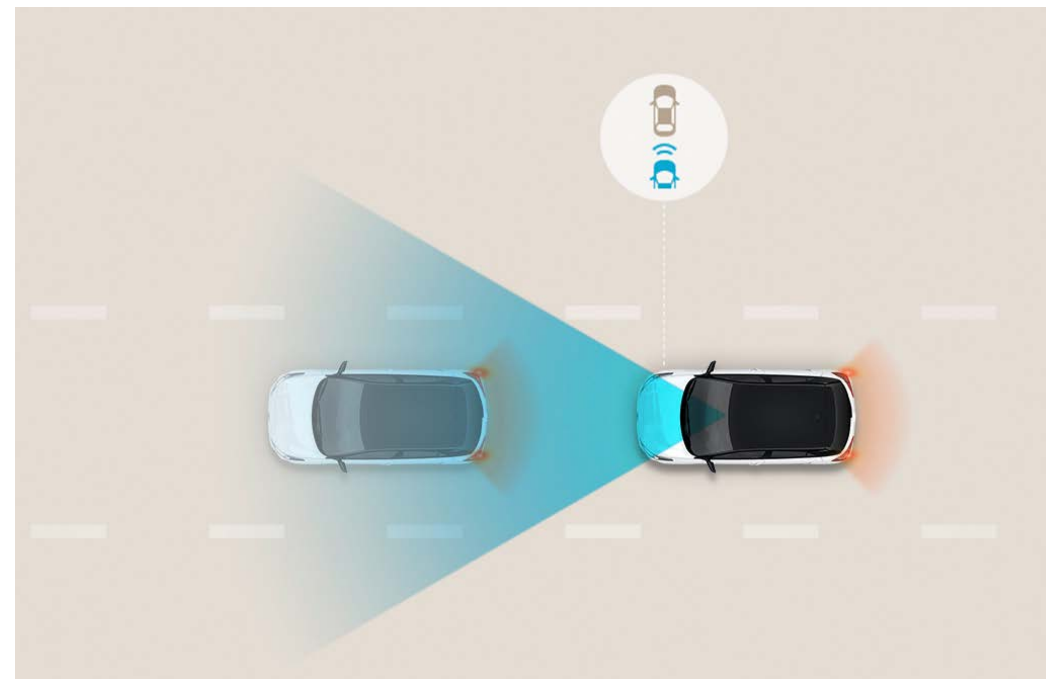

Hyundai SmartSense

Our cutting-edge Hyundai SmartSense Advanced Driver Assistance Systems give the i20 one of the most comprehensive active safety technology packages in its class – built to provide you with more safety and peace of mind.

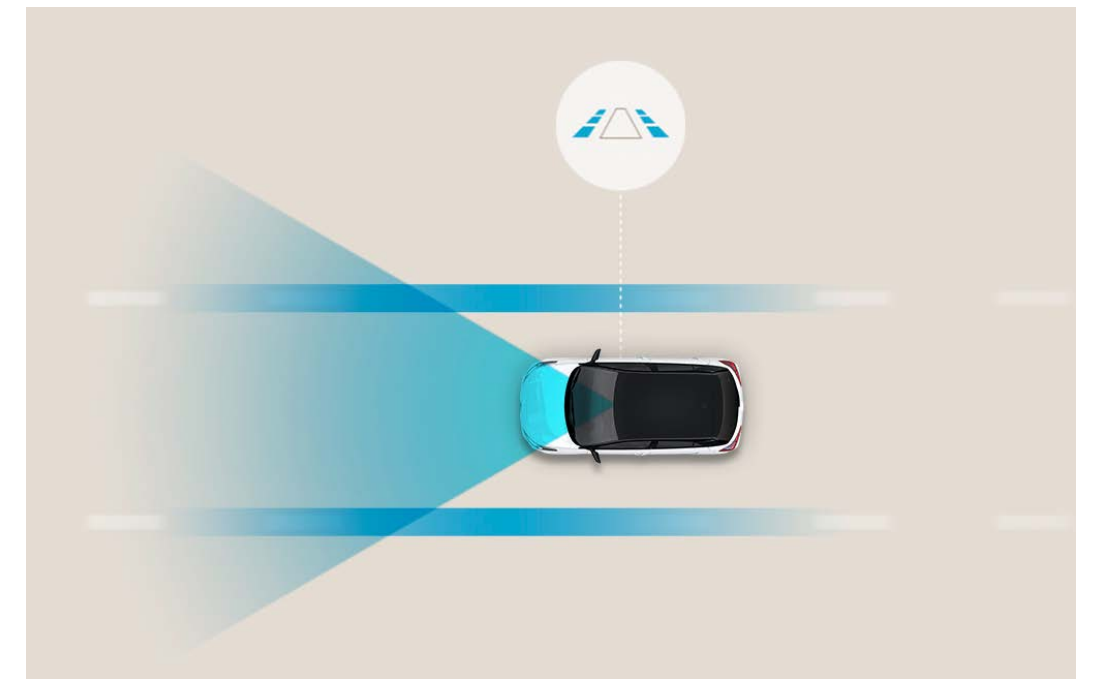

Blind Spot Collision-avoidance Assist (BCA)

Using two radar sensors in the lower rear bumper, the system warns you of traffic in the blind spot area. Should you set the turn indicator in such a situation, it will sound an acoustic alert and brake to avoid collision.

Forward Collision-avoidance Assist (FCA)

Sensing the road ahead with radar and a camera, FCA warns you and then automatically brakes when it detects sudden braking by a car ahead. The system also detects pedestrians and cyclists

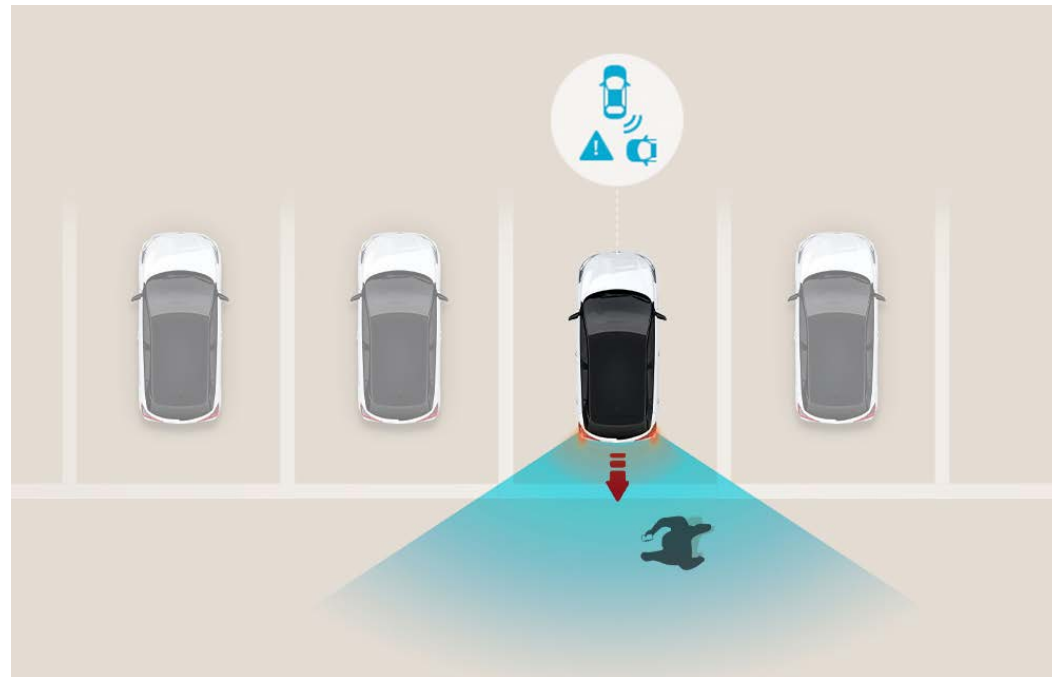

Lane Following Assist (LFA)

When activated, it keeps the vehicle centred in its lane at speeds between 0 and 180 kilometres per hour on highways and city streets.

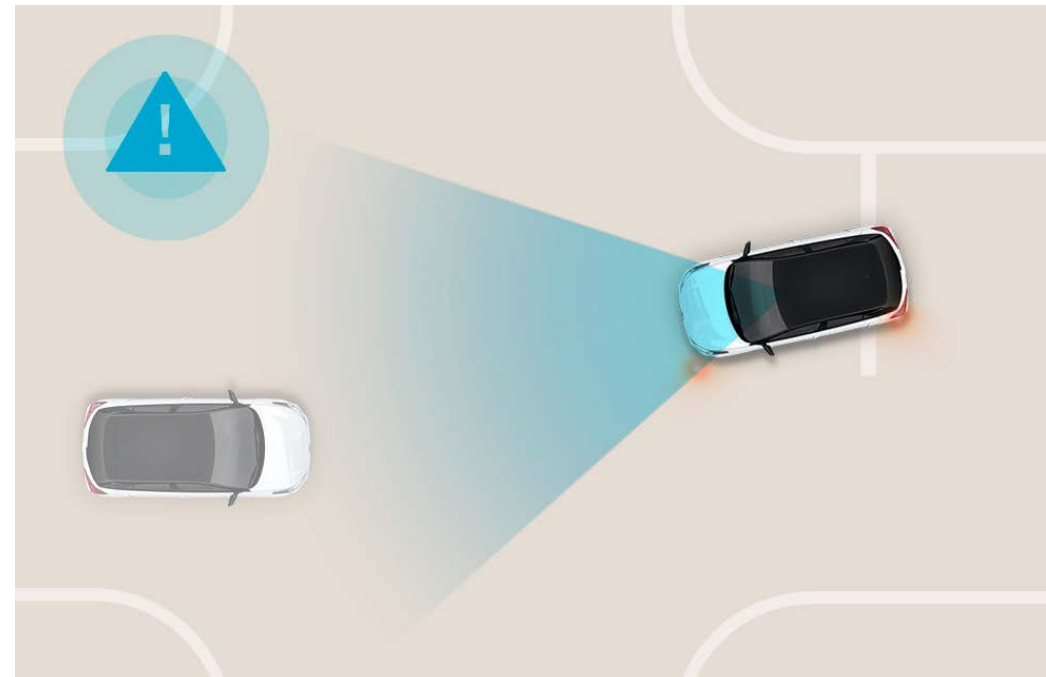

Advanced Driver Assistance Systems.

A multi-function camera in combination with multiple sensors provides the different functions.

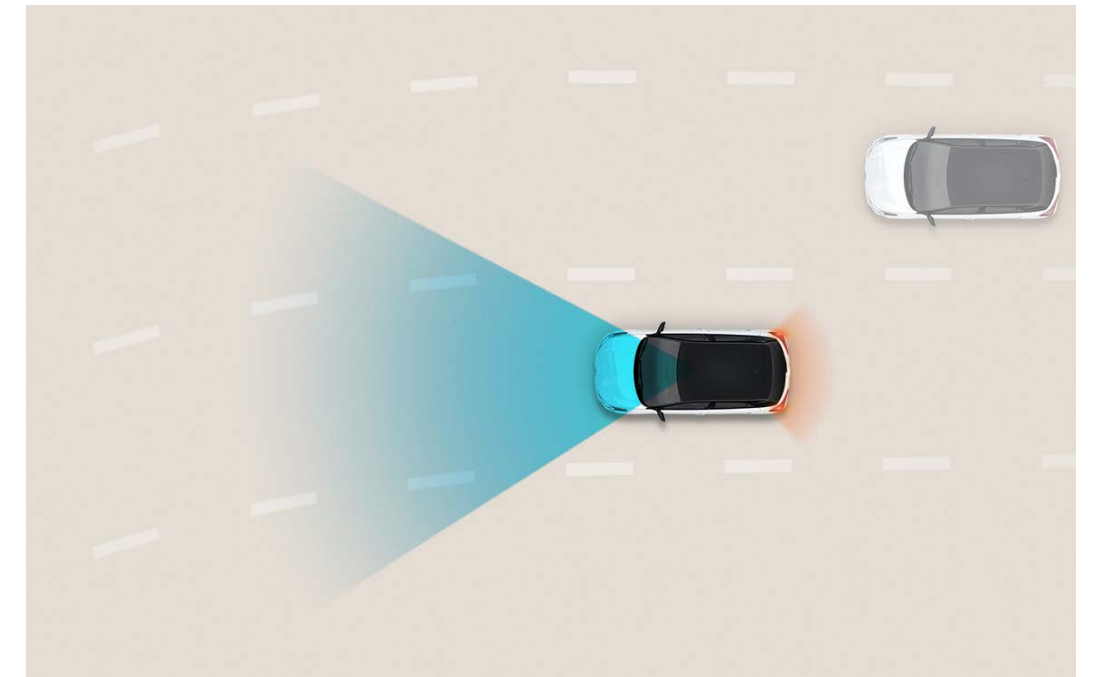

Parking Collision-Avoidance Assist-Reverse (PCA-R)

Enjoy additional safety when navigating narrow parking spaces in reverse gear. When a collision risk with pedestrians or obstacles is detected, the system warns you and automatically engages the brakes.

Forward Collision-Avoidance Assist with Junction Turning (FCA-JT)

Sensing the road with radar and a camera, the system automatically brakes when it detects sudden braking by the car ahead, or pedestrians and bikes on the road. During cross intersection turning, it brakes if there is a risk of collision with an oncoming vehicle.

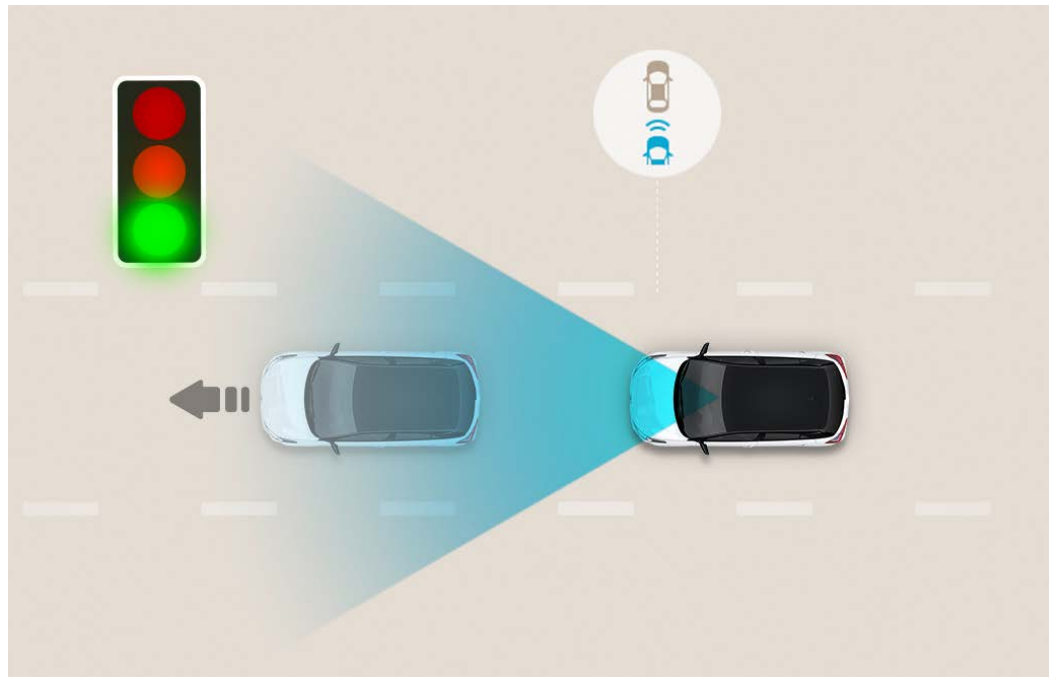

Navigation-based Smart Cruise Control (NSCC)

Utilises the state-of-the-art navigation system to anticipate upcoming corners or straights on motorways and automatically adjusts speed for safer driving.

Advanced Driver Assistance Systems.

Leading Vehicle Departure Alert (LVDA)

This clever feature for city driving alerts the driver when the vehicle in front moves from stationary, like at a stop light or in a traffic jam.

Rear Cross-traffic Collision-avoidance Assist (RCCA)

When reversing out of areas with low visibility, the system not only warns the driver if vehicles approach from the side, it also applies the brakes automatically.

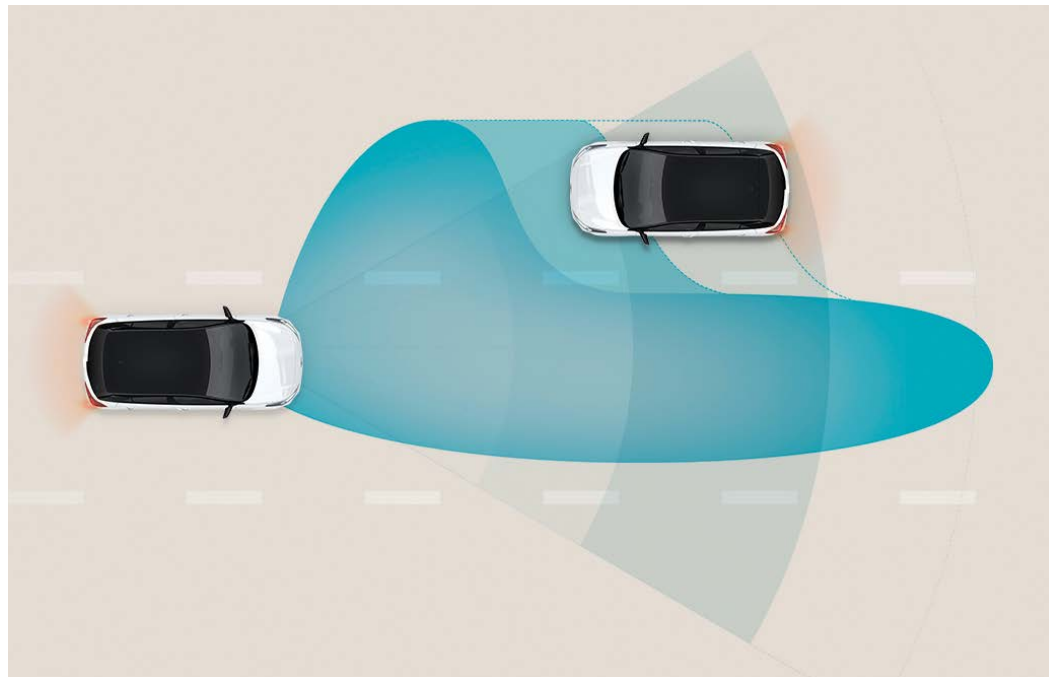

Driver Attention Warning (DAW)

When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

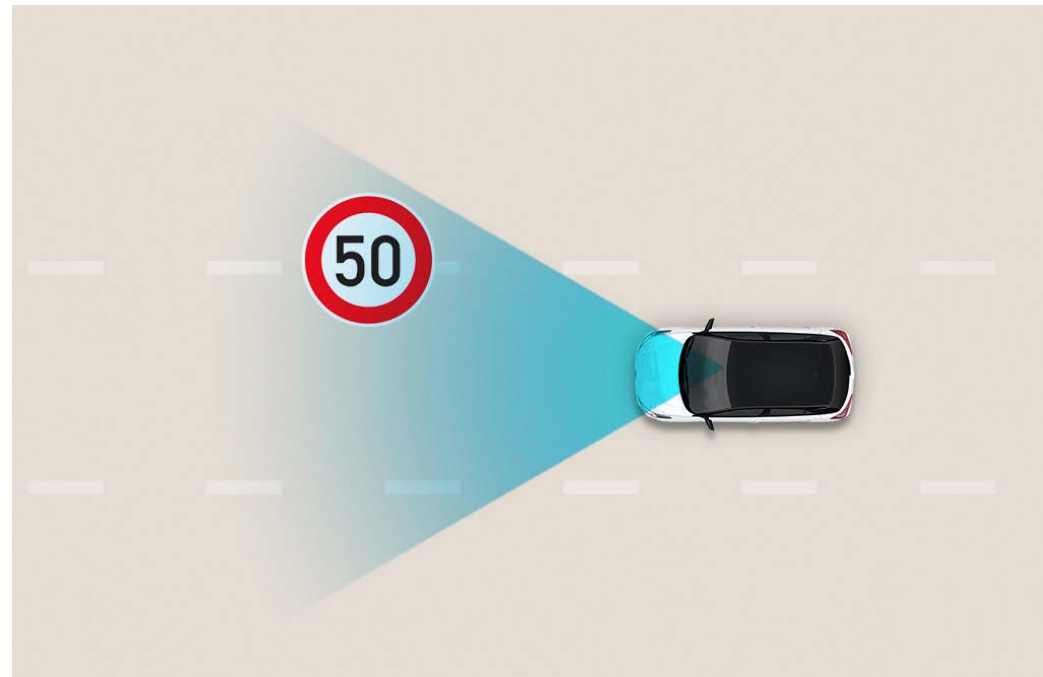

Advanced Driver Assistance Systems.

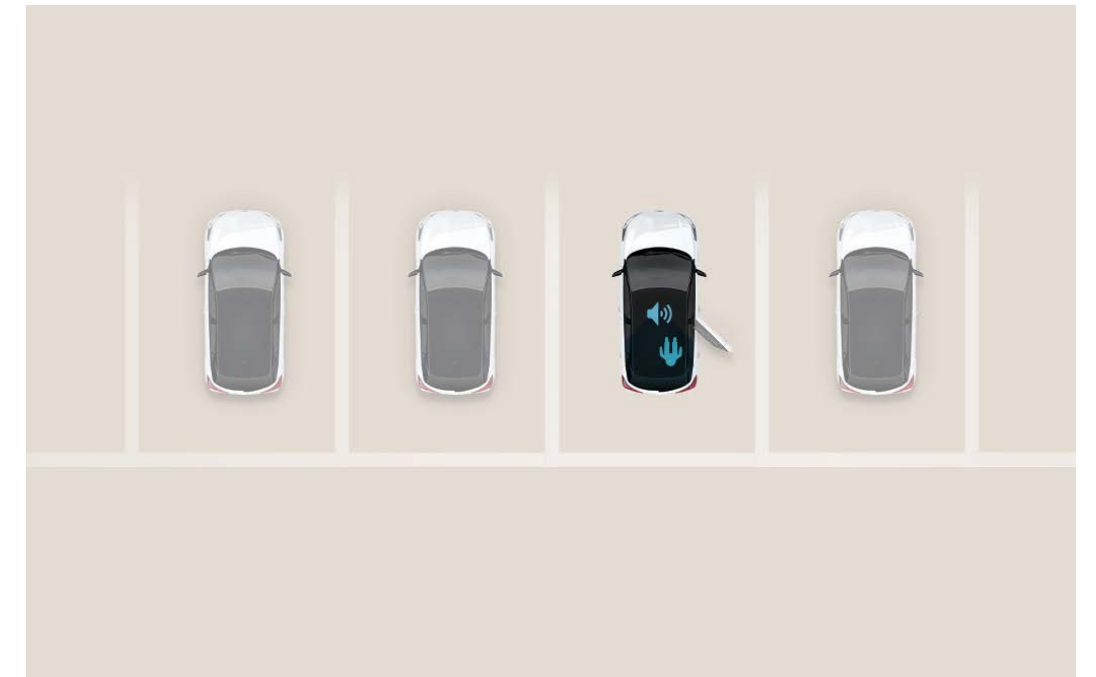

High Beam Assist (HBA)

HBA not only detects oncoming vehicles but also vehicles in the same lane ahead and switches to low beam as necessary.

Intelligent Speed Limit Assist (ISLA)

Alerts you with audio and visual warnings when you exceed the speed limit. When combined with the manual speed limiter or Smart Cruise Control, ISLA can even adapt the speed automatically.

Rear Occupant Alert (ROA)

This system detects if a rear door was opened or closed before the car was started, then reminds the driver to check the rear seat with a message on the centre cluster when exiting the vehicle.

Exterior options.

Make your i20 yours with eight exterior colours, a two-tone roof available in Phantom Black and stylish wheels.

*Optional two-tone roof available in Phantom Black (Pearl)

Stylish wheels.

The i20 is now available with a range of stylish wheels ranging from 15" steel wheels to newly designed 16" and 17" two-tone alloy wheels that complete the sophisticated side view.
